

## iPhone BBO On the Go

### Installing the App:

1. From your iPhone device, go to the App store.
2. Search for BBO on the Go. You should see the 1<sup>st</sup> Source Logo.

3. Install the app.

### Registering in the BBO to Go app:

These steps will happen the first time you register with the app. Once you are registered, you will be able to log in without registering.

1. Open the app.
2. Click accept on the agreement screen.
3. Now you will need to register.

Your User ID is the same ID you use to log into the BBO webpage.

Your Password is the same password you use to log into the BBO webpage.

Your mobile # is the number you sent in. The number must be able to receive texts.

Enter the User ID, Password and Mobile # and touch next.

**Please enter your registration details**

<b>User ID:</b>	<input type="text" value="BBO User ID"/>
<b>Password:</b>	<input type="password" value="BBO Password"/>
<b>Mobile Number:</b>	<input type="text" value="Registered Mobile#"/>
<b>Device Name:</b>	<input type="text" value="Grlg33k"/>

4. The Activation Pin page will be displaying. You should receive a text on the mobile phone that is registered with the User ID. The text will contain a 6-digit pin number to be entered on this page. Enter the pin on the page and touch activate.
5. When everything works properly, the app will log you right in.

### Logging in to the App:

1. Enter the User ID and Password. You can check the box to save your user ID. It will not be displayed but it can be stored.
2. Click Login.
3. Now you are on the home screen for the app.
